Were You Injured While Visiting Las Vegas?

Forty million people from around the world visit Las Vegas each year. Unfortunately, some of them are injured as a result of the carelessness of a hotel, casino, motorist, or some other party. If you have been injured in Las Vegas or if you have been injured in a auto accident, it is important that you hire an attorney who is licensed to practice law in Nevada rather than a lawyer from your home state.

The laws concerning personal injury cases are different in each state. Only a lawyer who is licensed to practice law in Nevada has the knowledge and legal right to practice law in Nevada courts. An out-of-state lawyer would be required to hire a local Nevada lawyer in order to file a Nevada lawsuit.

The insurance companies are aware that a lawyer who is not licensed to practice law in Nevada does not have the ability to file a lawsuit in a Nevada court on your behalf. Therefore, the insurance company will have a tendency to offer less money to an out-of-state lawyer who attempts to settle your Nevada injury case.
